PROFESSIONAL SUMMARY

Mechanical Engineer with an MSc in Engineering Management and expertise in CAD design, engineering drawings, GD&T, and Design for Manufacturability (DFM). Proficient in SolidWorks (CSWP, CSWPA-Sheet Metal), CREO, and Fusion 360, with experience developing 3D models, engineering documentation, and mechanical design projects. Supported industrial automation and Special Purpose Machine (SPM) assembly and validation, with a solid foundation in manufacturing processes, quality principles, and product development. Currently expanding technical expertise at Lincoln Electric India.

KEY SKILLS

CAD & Design Tools: SolidWorks (CSWP, CSWPA-SM & CWPA-WD), Fusion 360, CREO, GD&T, DFM/DFA

Manufacturing & Systems: Fanuc Robot Operation & coding, Installation & Commissioning, Conveyor & Material Handling, 3D Printing, BOM Preparation, Process Optimization.

Quality & Process: Lean Manufacturing, ISO 9001 / QMS, Root Cause Analysis (RCA), CAPA

Reporting Tools: MS Excel (MOS Certified), MS Office 365, SOP & Technical Reports, Engineering Documentation

PROFESSIONAL EXPERIENCE

Design Engineer **Oct 2026 - Present**
Lincoln Electric, Chennai, India

- Building expertise in MIG welding processes, welding applications, and FANUC industrial robot jogging, programming fundamentals, and operation.
- Developing mechanical design skills using SolidWorks, focusing on 3D modelling, component design, and engineering drawings for industrial applications.

Engineering – Automation **Jun 2026 – Sep 2026**
Agile Robots, Chennai, India

- Assemble and validate mechanical components and sub-assemblies for Special Purpose Machines (SPMs) in accordance with engineering drawings, BOMs, and assembly procedures.
- Owned mechanical fitment, alignment, and orientation verification for assigned machine assemblies, ensuring compliance with engineering drawings, design specifications, and quality standards.
- Identify and report discrepancies, damaged parts, and assembly deviations during machine build activities.

Automation Operations Associate (Automated Logistics Systems) **Sep 2024 – Feb 2026**
Royal Mail, Daventry, UK

- Operated and monitored automated material handling systems including conveyors and robotic tipping equipment.
- Supported smooth operation of automated logistics processes in a high-throughput environment.
- Coordinated with maintenance and operations teams to address equipment-related operational disruptions.
- Contributed to workflow efficiency and adherence to safety procedures within automated processing facilities.

EDUCATION

MSc in Engineering Management (Merit) **Sep 2022 – Jan 2024**

University of Leicester, UK

Relevant Modules: Lean Manufacturing, Project Management, Cost Engineering, Systems Engineering, Engineering Business Management, Accounts & Finance, and International Business.

BEng in Mechanical Engineering (First Class) **Jun 2017 – Apr 2021**

KPRIET College, India (Affiliated to Anna University)

Relevant Modules: Manufacturing Technology, CAD/CAM, Process Planning & Cost Estimation, Welding Technology, Strength of Materials, Thermal Engineering, Fluid Mechanics, Hydraulics & Pneumatics.

PROJECTS

UKSEDS In Orbit Servicing and Manufacturing Competition 2025 **Nov 2024 – Jun 2025**

- Developed mechanical system architecture and CAD models for a modular satellite servicing platform using engineering design principles.
- Evaluated manufacturability, structural feasibility, and subsystem integration requirements during concept development.
- Led design documentation, technical justification, and project submissions, contributing to a national 3rd-place finished among UK university teams.

Mechanical Design & CAD Development Projects **Part Time (Present)**

- Created conceptual mechanical component designs using CAD fundamentals
- Evaluated design feasibility and manufacturability.
- Applied engineering principles to improve structural reliability and efficiency

---

CERTIFICATIONS

- **Certified SolidWorks Professional Advanced Weldments (CSWPA - WD)**
- **Certified SolidWorks Professional Advanced Sheet Metal (CSWPA - SM)**
- **Certified SolidWorks Professional (CSWP)**
- **Certified SolidWorks Associate (CSWA)**
- **Lean Six Sigma Yellow Belt (CSSC)**
- **MOS: Excel Associate (Microsoft 365)**

ACHIEVEMENTS

- **3rd Place – UKSEDS IOSM National Competition (2025)**
- **3rd Place – Intercollege SolidWorks Industrial Sketching Competition (2019)**

LANGUAGES

- **English –** Fluent
- **Tamil –** Native
