PERSONAL SUMMARY:

Mechanical Engineer with hands-on experience in mechanical design, CAD modelling, engineering documentation, and manufacturing support, supported by an MSc in Engineering Management. Proficient in SolidWorks, Autodesk Fusion 360, GD&T, DFM/DFA, BOM preparation, and fitment validation. Experienced in cross-functional engineering support, CAPA documentation, root cause analysis, and product manufacturability improvement. Seeking to contribute to product design and engineering development within industrial equipment and heavy engineering environments.

SKILLS:

- **CAD & Engineering Tools:** SolidWorks, Autodesk Fusion 360, GD&T, BOM preparation, DFM/DFA.
- **Mechanical Systems & Manufacturing:** Manufacturing Process Improvement, Analytical Thinking, Installation & commissioning, fabrication, shop-floor tooling, 3D printing.
- **Quality & Process Improvement:** Lean Manufacturing, ISO 9001/QMS, RCA, CAPA, process documentation.
- **Digital & Reporting Tools:** MS Excel – MOS Certified, PowerPoint, MS Office 365, SOPs, technical reports, SOP Documentation.
- Exposure to Jig & Fixture Design Fundamentals, Weldment Modelling & Fabrication Awareness, Assembly Fixture Concepts, GD&T & Fitment Validation.

WORK EXPERIENCE:

Nov 2022 – Jan 2026 Automation & Process Improvement Coordinator Royal Mail, UK

- Supported mechanical troubleshooting of automated conveyor and material-handling assemblies.
- Performed fitment validation and mechanical alignment checks
- Conducted Root Cause Analysis (RCA) to reduce recurring equipment issues, operational downtime.
- Performed mechanical inspections and maintained deviation logs, corrective actions, and fitment validation of steel transport cages (YORKs) and handling equipment.
- Supported mechanical fitment validation and alignment of automated handling equipment

Feb 2022 – Jul 2022 Mechanical Engineer Euregaa Motors, India

- Performed dimensional and visual inspections of torsion rods and generator components using engineering drawings and specifications.
- Collaborated with production teams to resolve component issues and maintain manufacturing continuity.
- Supported root cause analysis of recurring defects and assisted in implementing corrective actions.
- Maintained structured inspection records & quality documentation aligned with internal standards.
- Improved inspection workflow efficiency by streamlining verification steps, reducing rework delays

Nov 2018 – Nov 2018 Automobile Intern South India Motors, India

- Performed inspections and testing of serviced vehicles for performance and safety compliance; assisted in root cause diagnostics with quality and process standards.
- Gained exposure to supplier coordination, quotation review, and basic cost considerations during servicing and repair activities.

EDUCATION:

Sep 2022 – Jan 2024 **MSc in Engineering Management - Merit** **University of Leicester**
Modules: Lean Manufacturing, Project Management, Cost Engineering, System Engineering, Engineering Business Management, Accounts & Finance, and International Business.

Jul 2017 – Apr 2021 **BEng in Mechanical Engineering - First Class** **KPRIET College, India**
(Affiliated & Degree awarded by Anna University)

Modules: Manufacturing Technology, CAD/CAM, Process Planning & Cost Estimation, Welding Technology & Strength of Materials, Electrical and Electronics Engineering, Hydraulics & Pneumatics, Thermal Engineering, Fluid Mechanics.

PROJECTS:

Nov 2024 – Jun 2025 **UKSEDS In Orbit Servicing and Manufacturing Competition 2025.**

- Developed mechanical system architecture & CAD models for a modular satellite servicing platform.
- Led process documentation and system design justification, project shortlisted **3rd nationally across UK universities**

Oct 2024 – Present **Mechanical Design & CAD Development Projects.**

- Created conceptual mechanical component designs using CAD fundamentals
- Evaluated design feasibility and manufacturability.
- Applied engineering principles to improve structural reliability and efficiency

ACADEMIC PROJECTS:

Aug 2023 **Manufacturing Strategy & Change Management in EV Production** **(MSc Dissertation)**

- Analysed manufacturing strategies adopted by EV manufacturers in China and India, linking change management models with green manufacturing, supply chain localization, & production scalability.

Dec 2022 **Water Distribution and Firefighting Network design** **(MSc Course Work)**

- Designed a marine firefighting and water distribution system using QFD and FTA; developed risk analysis, GA layouts, CAD documentation, and failure prediction model.

Apr 2021 **Natural Fiber Based Corrugated Panel for Sound Damping.** **(UG Project)**

- Developed natural-fiber epoxy acoustic panel achieving Noise Reduction Coefficient of 0.64 for high-frequency damping.

CERTIFICATIONS:

May 2026 **Certified SolidWorks Professional**

Feb 2026 **Microsoft Office Specialist: Excel Associate (Microsoft 365 Apps)**

Sep 2025 **CAM Additive Manufacturing – Autodesk Education**

Aug 2025 **Lean Six Sigma Yellow Belt – The Council for Six Sigma Certification (CSSC)**

Mar 2025 **Lead Auditor in ISO 9001 / Quality Management System Auditor - Udemy (Accredited)**

ACHIEVEMENTS:

3rd Place – **UKSEDS IOSM National Competition (2025)**

3rd Place – **Intercollege SolidWorks Industrial Sketching Competition (2019)**
